plots 203/1

Sept. 24. 1926

TRACINGS.

Handwritten text, likely bleed-through from the reverse side of the page. The text is faint and mostly illegible due to fading and the texture of the paper. Some words are difficult to discern but appear to be arranged in several lines.

Additional handwritten text, also appearing to be bleed-through. This section contains more lines of text, which are similarly faint and mostly illegible. The handwriting is consistent with the text in the upper section.
